Aggregate Percentage: (77.6%)
- **Adarsha Vidya Mandir, Manbhawan, Lalitpur** (2003-2010)  
School Leaving Certificate (S.L.C)  
Percentage: (85.13%)

## **TECHNICAL SKILLS**

---

### **Programming Languages:**

1. Java (Core and Spring-Framework)
2. JavaScript (core, Node.js)
3. Web-development (Html, CSS, Bootstrap, jQuery)
4. Git
5. Software Design Patterns (Abstract Factory Pattern, DAO and MVC)

### **Database:**

1. MySQL

### **Experiences**

1. Internship at Leapfrog Technology Inc. (March – August 2017)

### **College Projects**

1. **Hireme365: Web based freelancing application, SEM VIII** - *This project was developed using JavaScript (node.js). It provides a stable and reliable platform for freelancing. Employers can post jobs and freelancers can apply for jobs from a list of available jobs that are suggested according to their field of expertise and job success rating.*
2. **Android Chatting Application, SEM VI** – *The project used hotspot for the connection and allows users to send messages between each other within the same network. I have made use of socket programming with Android (Native- Java)*

### **Personal Projects**

1. **Customer Relationship Management (CRM)** – *This application was built in spring framework. Features includes enabling us to contact the customer in a single click.*
2. **Nepali Shopping Cart** - *I built this application to be familiar with spring framework. It demonstrates how the online shopping cart can be made using spring.*
3. **Java Chat Server** – *I built this application for managing the JAVA chat server with features like private/group messaging, Kick user and many more. I have made use of abstract factory pattern in this project for handling the client request.*

4. **File IO Terminal** – *I built this application with extended features to the command prompt file IO terminal like downloading of files and content of the internet.*

## **STRENGTHS**

---

- Ambitious and hardworking individual with teamwork mentality
- Sound communication and good presentation skills.
- Leadership skills and moreover a good team player.

## **INVOLVEMENT IN OTHER ACTIVITIES**

---

- Resource Manager at **KEC IT Club** for 2016:
  - Conducting various workshops and code-camps
  - Assisting students in their ongoing software projects
